EDGELEY.

Received too late for last issue.

—Mr. W. C. Combs started two new
press drills on Wednesday, the 16th inst.

—Mr. J. Balfour, brother of Mrs. F. G.
Wittingham, has returned from British
Columbia for a few weeks, and is visiting
friends in this vicinity.

—Mr. F. Goodwin and his son George,
who have both been dangerously ill, the
former with pleurisy, the latter with inflamma-
tion of the lungs, we are happy to say,
are both recovering.

A large circle of sympathetic friends at-
tended the funeral of the infant child of Mr.
F. Goodwin, which took place on Wednes-
day afternoon, the 16th inst.

—Mr. William Sides has been confined to
his room for several weeks by a sore leg,
caused by a slight hurt received from a horse.
He is now on the fair road to recovery.

WOLSELEY.

A social in aid of repairs to the Presby-
terian church, Wolseley, will be held on
Wednesday, May 7th, prox. Tea will be
served in the town hall, from 6 to 7.30 p. m.,
after which an interesting musical and liter-
ary program will be executed in the church.
Rev. Mr. Johnson, of Fort Qu'Appelle, formerly
pastor of the congregation, is expected to
be present and take part in the proceed-
ings.

MOFFAT.

—We are all glad to welcome spring once
more.

—Seedling is now in full swing, the ground
being in capital order to receive the seed.

—We are getting plenty of rain just now,
and there is a broad smile on the farmers'
faces.

—Owing to the influx of two or three large
families, quite a lot of the Government land
in this settlement has been taken up.

—Farmers are all very confident of big
crops this year, and are putting in all the
seed they can lay their hands on. Let us
hope they will not be disappointed.

—Our new school is to be opened towards
the end of this month, and in the meantime
until a proper schoolhouse has been erected,
the children will sit in Mr. Duncan's granary.

—A Methodist sacramental service was
held here last Sunday, conducted by the
Rev. J. Tozland of Qu'Appelle, and judging
by the attendance it was very much appre-
ciated.

—The Johnson brothers, of this settle-
ment, have just brought up a carload of stock,
including a thoroughbred Holstein bull, and
seed corn from the east, the latter being a
great boon to settlers, as the amount Gov-
ernment granted was quite inadequate to
supply the demand.

—The town's new poundkeeper is a hus-
tler. He has had a long and successful career
as animals at large during the past week, and
has reaped a considerable harvest. Parties
owning cows have to keep a string on them
now. Proximity to a stable without a fence
is no safeguard.

—The annual vestry meeting of St. Paul's
church was held Thursday evening. The
election of church officers was proceeded
with and resulted as follows:—Regor's
warden, Mr. Henry Le Jeune; people's
ward, Mr. J. D. Sibbald; vestry clerk, Mr.
W. B. Baird; Mr. J. D. Sibbald, vestry clerk of
last year's session, was re-elected, and Mr. Baird's
name added. The matter of a new church
building was discussed, and a resolution
was adopted, deciding that \$17,000 be ex-
pended in the erection of the same. Ad-
ditional money was raised for the week, when
the warden's report will be presented.

—Robert Cameron, brakeman on the
Long Lake road, had his right hand badly
smashed while coming in the Regina yard
Wednesday night about 11.30. There was
a couple of feet of water on the spot, and
upon the engine to make the coupling and
the inconvenience of the position caused the
accident. Dr. Willoughby dressed the
hand and knuckle and a dozen stitches
were put in the palm of the hand. Cameron
was the oldest brakeman, having had 25
years' experience on the C. P. R. It was
his second day's work this spring on the
Long Lake Road.

QU'APPELLE.

—It was thought by many that owing to
an unusual quietness regarding railway
matters in this neighborhood that there was
no further hope, and that they were dead;
but it would seem that the promoters of the
Wood Mountain road have not been idle, but
have been working quietly in the interests
of the enterprise, and now it only remains
for the Government to treat this company
with the same liberality as they have cer-
tain others, and we will have the iron horse
running in here from Regina as well as
from Qu'Appelle station before the end
of the year.—Vibrio.

—Less than 250 head of Government
seed grain have been applied for by settlers
on the P. M. Colony. This shows a better
state of things than some places can boast of.

—It is stated that Mr. W. R. C. White,
who was recently appointed School Trustee,
has resigned; and the present intention of
the Trustees is to close the school for the
summer.

—Mr. James R. Glover, who has been
residing at Qu'Appelle station for about four
years, returned to this place. It is hoped
his stay will be permanent.

—Work on the Chinese Factory has again
been resumed. Messrs. Stangley & Co. being
in it for the road. The kind of shingles is
new here, and it is hoped they will prove
satisfactory.

—Three more loads of cheese factory
paint, etc., have arrived this week, Wolseley.

THE PUBLIC WARNED.

Many people are deceived into believing
that laxness, dyspepsia, constipation, etc., are
due to some kind of other disease, and
therefore do not cure them properly by using
nature's food, but by using drugs. Dr. Cassell's
Bile Beans, which cure a wide range of dis-
eases, curing all the diseases of the stomach, liver,
kidney, and bowels.

—The public are warned that the
Government is not responsible for the
loss of any property.

WAPPELLA.

—W. Greke is on his way back here.

—F. A. Spire has a government appoint-
ment as surveyor.

—It is rumored that George Jones has
ruined the Cambrian.

—Farmers are through seeding wheat;
all we want now is rain.

—Mr. J. Gordon will shortly fly to the
States to try his luck at hop growing.

—Angus Morrison will shortly place the
golden ring upon the finger of Miss Kate
McPherson.

—Doctor Brace has been very busy lately,
but is safely bringing all his patients
through to health.

—Messrs. Still and Overweg, and C. H.
Still have left for England; they purpose
returning in August.

A meeting will be held to night to dis-
cuss a programme of sports for the 24th & 25th
May. The farmers have subscribed very
liberally.

—Prairie fires are rampant, and Constable
Green is determined to make an example
of the first miscreant he catches, and the
J. P.'s will make it hot for them.

SALT COATS.

—The boys around town are organizing
a baseball club.

—Seventy-five families will locate at
Lagunung this month. They come from
Russia, Austria, Bohemia and Germany.

REGINA.

—By the Ottawa estimates for Northwest
schools, the Government grants will be
reduced about 15 per cent., after the end
of the present fiscal year.

—W. M. Child, with his family, arrived
home from England on Monday last. A
winter in England has made them more than
satisfied with their Northwest home.

—H. J. Peters has prepared plans of a
27,500 two-story brick veneer block to be
erected on the corner of South Railway and
Rose streets by Mr. Chas. H. Black, book-
seller, who was a victim of the late fire. The
contract will be let immediately.

—The town's new poundkeeper is a hus-
tler. He has had a long and successful career
as animals at large during the past week, and
has reaped a considerable harvest. Parties
owning cows have to keep a string on them
now. Proximity to a stable without a fence

LETHBRIDGE.

—The large boarding houses of the Alberta
R. & C. Co. are nearly ready for occupation.

—I. G. Baker and Co. find their very
large store too small for them, and are about
putting up an addition.

—The new shafts are progressing steadily.
The first shaft No. 1 is over 100 feet down,
and No. 2 shaft over 60 feet.

—The surveyors for the road to Montana
have been in town several days, and started
heading the grade this morning.

—Two deaths have occurred this week, the
infant daughter of C. C. McCall, barriater,
and Samuel Davis, late yard master at Dun-
more.

—To show the extraordinary increase in
land values, Mr. Ritchie, real estate agent,
during the past week has sold lots east of the
city square for \$12.50.

—Within the last few days additional
trains have been dispatched to and from
Lethbridge to Dunmore heavily laden each
way with coal, lumber and other freight.

The superintendent of the road, Mr. Bailey,
has found it necessary after his recent shake
up to go to Lethbridge to recuperate.

—Considerable building is going on. Rev.
Mr. Prichard and Mr. Greenough have com-
menced operations. Mr. Warden has
nearly completed his building. Mr. Ritchie,
carpenter, is finishing his house begun last
fall, and Mr. Farrar is hard at work on a
seven roomed, two story concrete house.
The boys are beating lumber hollow and
cans no more.

—The Alberta R. and C. Company are
now following the example of private citi-
zens who have land for sale by raising the
prices of their lots 50 and 100 per cent. ac-
cording to the situation. An offer was made
by Mr. Stafford, superintendent of the mines,
on behalf of the company to give the landless
miners one acre lots for \$150, and furnish
\$200 worth of lumber on 5 years time at 8 per
cent. The above land is one mile from the
depot.

PRINCE ALBERT.

The Saskatchewan.

—The last consignment of Prince Albert
carries in the shape of George Russell
got in safely last night. He brought in a
load of buggies and buckboards, and looks
none the worse for the trip and the poor
show made at ending.

—The Presbyterian church last Wednes-
day evening was filled to its utmost capacity
by our townpeople to hear and enjoy the
Temperance Concert under the auspices of
Report Council, No. 4, R. T. of T. The
evening passed away very pleasantly, as the
different parts of the programme were being
given.

—Last Sabbath evening the Ven. Arch-
deacon George McKay preached an admirable
sermon in St. Alban's church to the mem-
bers of the R. T. of T. The house was full
to its utmost capacity, and the preacher did
full justice to the important subject which
he treated. The Royal Temperance show by
their periodical visits to the different churches
in town that they are not to be identified
with any particular church, and in this they
are to be commended. They have already
come to Prince Albert to stay, and we wish
them all success in the noble Temperance
work for which the Order was established.

BATTLEFORD.

Saskatchewan Herald.

—We said last week that Messrs. Speers
& Son were the first to get their share in,
having seen on the 4th. Since then we
have heard that Farming Instructor Nash,
on Thunderchild's reserve, was absent of
them, having seen his wheat on the 2nd.

—Malcolm Macdonald, late of Union
Lake and formerly of this place, arrived in
town on Thursday. He walked from Union
Lake, making the trip in three and a half
days—an average of nearly thirty-five
miles a day. For a part of the way the
snow was knee deep, but very soft, making
snowshoeing difficult. He has left the Hind
and Bay Company and will remain in town.

—Messrs. W. A. Allan, of Ottawa; Henry
Lejeune, J. H. Secor, A. F. Edin and H.
Arnold, of Winnipeg, have been incorpo-
rated by letters patent, as the Crowfoot Coal
Company, limited, with a capital of \$250,000.

For Prohibition.

It is said that no liquor has ever sold in the town of Hancock, Maine, and naturally enough not in Hancock people have no need of an antidote.

The Sanitarium says: "In some parts of the West cigarettes are quite commonly referred to as coffee balls. This is by some considered unjust to coffee balls, which are, in their way, useful and even necessary articles."

The Catholic Church is absolutely and irreversibly opposed to drunkenness and to drunken making. In vain we profess to work for souls if we do not labor to drive out an evil which is daily begetting sin by the ten thousands and poisoning hell. In vain we boast of civilization and liberty if we do not labor to exterminate intemperance.—Bishop Ireland.

At a recent meeting of the Masonic Grand Lodge of New-Scotia, a rule was adopted prohibiting a saloon keeper from becoming a mason, or remaining in the order if he continues the business. Charges were preferred against the prominent members of the order in that State, who were engaged in liquor selling, and at a recent meeting of the lodge they were expelled from the order. It is understood that like prosecution will be begun all over the State.

Benford's Wine and Spirit Circular, of the 30th ult., says: "We find when the much vaunted high-license law was adopted in Pennsylvania, that the unavoidable result in localities where attempts might be made to enforce it, would be to increase intemperance selling. How our observation has been justified in this respect, in the actual condition of things in Philadelphia, it is reported that there are now in that city 5,000 bar-rooms, or 'saloons,' as they are called in the language of the report, doing business without any license. We have no doubt whatever that the number of places in Philadelphia where intoxicating beverages are sold without a license is very much larger than 5,000."

THE IMPORTED ENGLISH SHIRE STALLION.

GRANITE 3d

(Registered in the English Stud Book, No. 7295, Volume 10.)

Will travel in the Qu'Appelle District for a limited number of approved mares, during the season of 1889. Mares from a distance will be purchased at \$100 per week, and every care will be taken to avoid accidents, but all mares must be considered at owner's risk.

PEDIGREE, &c.

Sire Premier (2646), by What's Wanted (3422), Dam by Tory (2999). Granite was bred in the year 1887, by Mr. A. E. Cooper, Normanston-le-Heath, England, and is the winner of the 1st prize at Ashby-de-la-Zouch, England, he is a grey-roan, and a sort of unexcelled grand quality, with well-shaped legs and feet.

Premier (2646), bred in the year 1880, by Mr. John Fisher, Layton Hall, is one of the most impressive sires of the day. Mr. Sander Spencer's excellent report of 1880 London show, in giving a summary of the winning sires, states: "The most remarkable addition is Premier (2646), who with the aid of five yearlings and one three-year-old, distances his rivals, and claims six winners." Again in the report of 1887, he says, "By the same writer: "For the second year in succession, Premier (2646), takes pride of place with seven winners." This stock, both of color and build, commands extraordinary high prices and are much sought after. Premier is bred for the season of 1890 to the Leitch-shire Agricultural Society for 500 gns. (\$2,500). The British Live Stock Journal, of March 19th, in speaking of Granite, says: "This valuable importation will doubtless prove beneficial to the farmers of the district."

TERMS.

To insure, \$20; \$5 each down, balance of \$15 payable 1st February, 1891 (satisfactory security being given), if the mare proves to be in foal. For the season, 100, cash down. Bills will be sent at intervals, and on giving full particulars. To prevent disappointment apply for nominations at once, to J. H. BROWN, Harward, P. O.

QU'APPELLE, N. W. T.

A. Harris, Son & Co., Brantford.

WE do not claim to have received a Gold Medal at Paris, although we received two Silver Medals, but we DO CLAIM—

FIRST—To have defeated the Massey (Toronto) Binder in every competition in the world, where we have met it on an equal footing. SECOND—During the season of 1889-90, in Australasia, the "Brantford" defeated all the leading binders of the world. See list of victories.

THIRD—In the Australasian competitions the "Brantford" Binder defeated the Massey (Toronto) SIX TIMES; or EVERY TIME the two binders came into competition the "Brantford" was victorious. See list of victories.

FOURTH—The "Brantford" Binder replaced every other binder of any consequence made in Canada in 1889. That is, where other makes of NEW binders failed and were returned, the "Brantford" was purchased and successfully finished the work.

FIFTH—We challenge any one to point to a single instance where a new "Brantford" has been returned through failure to do its work.

SIXTH—A great many more "Brantford" Binders were sold in Canada in 1889 than of ANY OTHER MAKE, and as many as were sold by FOURTEEN other Canadian makers put together.

SEVENTH—The "Brantford" Binder is a "Home" machine and has a "Home" record without a single defeat in any kind of crop, used by hundreds of satisfied farmers in all the provinces of the Dominion.

EIGHTH—The "Brantford" Binder, as sold "at home," is specially designed and built for home trade, and is particularly adapted to the needs of Canadian farmers and farmers. For foreign countries it is built to suit the peculiarities of the land and crop prevailing where it is sold.
